As Chevrolet continues to manufacture outstanding vehicles that meet every single criterion of avid users through the years, its new models are no exception to the superior quality and performance that Chevy vehicles are known for. It continues to be the classic American workhorse at the same time providing the luxury, comfort, style, excellent performance, endurance, and the safety and security that it has provided loyal patrons through the years. Driven by the passion to create superior cutting edge technology in the automotive industry that earns it its years respect from the customers and the industry in general, the new Chevy trucks for sale meet or even exceed international quality standards.

The new Chevy trucks for sale remain the "strongest, most dependable and longest lasting truck on the road". It continues to receive great reviews and awards due to new phases introduced such as its six-speed automatic transmission, a much bigger V8, a very cost-effective XFE make, and an electric/gasoline hybrid. The 2009 model Chevy trucks for sale adds a few extra features and improvements to the 2008 model. Compared to its top competitors from Nissan, Dodge, Ford, and Toyota, the new Chevy trucks for sale still remain conservative in terms of looks but retain that clean and bold styling characteristic of GM vehicles and loved by loyal GM buyers. The interiors include 3 cabs, 3 beds, 5 engines, three transmissions, and five suspension set ups on four wheelbase lengths all of which are custom made for that road dweller who would both love to have both spacious, luxurious, and superbly made interior parts.

Other add-ons and upgrades consists of a rearview camera system, a navigation system, improved wheels, bluetooth capabilities, XM radio with realtime traffic information, and a whopping 1-year complimentary OnStar Direction and Connections Plan with the technological revolution of turn by turn navigation, which includes downloadable destination through mapquest.com e-navigation services. And of course, with OnStar as a standard equipment of GM vehicles, the new Chevy trucks for sale continue to provide you with peace of mind and security with OnStar emergency, roadside assistance, and hands-free calling. This is aside from standard safety features in the vehicle such as dual front airbags, anti-lock brakes, tire pressure monitoring system and optional features which include side-curtain airbags, StabiliTrak electronic stability control with rollover mitigation technology, and Autotrak active transfer case, rear park assist all tied to the revolutionary in-vehicle checking technology (exclusive to GM vehicles) OnStar Vehicle Diagnostics System. This works in two ways if you have an active OnStar subscription (1 year free for brand new vehicles). One is through email reports generated by the OnStar system in your Chevy vehicle and sent to your email. The email report provides you checks on the key operating systems of your vehicle and when to schedule oil change and maintenance with your dealership. Another is through GM Goodwrench Remote Diagnostics which includes a pre-trip check. Through the push of the blue OnStar button, you get connected to a live advisor from the OnStar center who will then diagnose the condition of your vehicle real time.

Another new in Chevy trucks for sale is the 6.2-liter V8 (403 hp/417 lb-ft of torque), which is a flex-fuel engine that includes aluminum block and variable cam timing and a six-speed automatic though this is only offered on Crew Cab models.

The conservative look of your Chevy truck may not have the fierce and sleek styling of the Dodge Ram or Nissan Titan or even the Toyota Tundra or the 2009 Ford F-150, but its bold and classic design remains appealing and sophisticated to its faithful and loyal customers. This and more continue to translate hundreds of thousands of Chevy vehicles sold every year. The Chevy truck models offer hundreds of features that will surely give you your money's worth with the added feeling of safety, security, performance, durability, and classic style. After all, investing on a Chevy vehicle can still be one of the wisest decisions you can make in these financially trouble times.
